

PRODUCT SHEET

POWDERS

Powders are an excellent format for certain food supplements, such as collagen, amino acids or electrolytes. One key advantage is that powders **do not require costly or time-consuming pre-treatment during production.**

Food supplements in powder form are particularly suitable **for people who have difficulty swallowing capsules or tablets**, as they are **easy to consume** and **are absorbed quickly** by the body. They can be **effortlessly integrated into daily routines** and – depending on the formulation – they can be adapted to personal preferences: consumed directly, dissolved in water, juice, or milk, stirred into yogurt, or mixed with other foods. Powders also allow for precise and easy dosing, offering consumers flexibility in how they use them. Available in a **wide range of delicious flavors**, powders cater to the individuality of modern, fast-paced lifestyles.

INFORMATION

Shapes

- Powders
- Granules
- Flakes

Lead Times

- For first order 12weeks after signatures & artwork approval
- For consecutive orders 10 weeks

Packaging Types

- Jars available in various shapes (also squared or oval) & colours, w/ or w/o box
- Cans (cilindrical shape) available with folding box
- Doypacks
- Sticks
- Sachets (simple/double)

Formulations

- Extensive list of great-tasting formulations covering a wide spectrum of consumers' needs

Batch Sizes

- Cans: 5.000 (tin)
- 10.000 (cardboard)
- Doypacks: 5.000
- Sticks: 200.000
- Sachet double: 200.000
- Sachet simple: 150.000

Packaging Materials

- Jars: PET | HDPE
- Cans: tin | cardboard
- Doypacks: plastic
- Sticks: 10ml: Alu + PP + Paper 30ml: Alu + Paper
- Sachet simple/double: Alu + PP + Paper

Packaging Sizes

- Jars: 1L | 1.5L | 3L | 4L | 6L
- Cans: 200ml – 750mg
- Doypacks: with zipper 250g. 145mm width x 200mm length x base 40+40mm. The length could vary according to this range 150mm - 300mm.
- Sticks: from 3-6g depending on the density; 10ml | 30ml
- Sachet simple: flat envelope 17g. Width (min. 70mm | max. 220mm) and length (min. 120mm | 300mm) are adjustable
- Sachet double with precut: from 8-12g depending on density. Standard: 65 x 120mm, width (min. 55mm | max. 110mm) and length (min. 120mm | max. 300mm) | 100ml

PACKAGING OVERVIEW

Sachets 100ml
7-22 x 12-30cm
Alu + PP + paper

Sachets pre-cut envelope 30 + 30ml
single: 5-11 x 12-30cm | double: 10-22 x 12-30cm

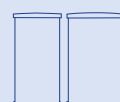

Doypack 450cc plastic
145 x 200 | 40 + 40cm | 27 x 17mm

Sticks 2-5g
5-16 x 2.8cm | Alu + PP + paper
27 x 17mm

Cans
Slim: 200 – 325g
Wide: 390 – 750g
