

## PRODUCT SHEET

### SOFTGELS

Softgel capsules are **ideal for encapsulating oils, emulsions, or pasty consistencies**. The capsules are formed directly during the filling process from two tightly sealed halves made from gelatin or vegetarian materials like carrageenan. If needed, **opaque, non-transparent shells can provide protection from light**, ensuring ingredient stability.

A key advantage of softgel capsules is the minimal or no pressure during filling, which preserves sensitive nutrients by reducing thermal stress. Additionally, the shell shields against environmental factors and masks unpleasant tastes, making them especially popular for products like fish oil. The encapsulation ensures the contents are easily absorbed without direct contact with the oral mucosa.

#### INFORMATION

##### Shapes

- Round
- Oblong
- Oval

##### Lead Times

- For first order 12 weeks after signatures & artwork approval
- For consecutive orders 10 weeks

##### Packaging Materials

- Jar: PET, rPET, HDPE, CSP, metallic, glass
- Blister: PVDC + Alu / Alu + Alu

##### Formulations

- All standard formulations available
- Personalized formulations starting from 3 million softgels

##### Packaging Types

- Jar available in various shapes (also squared or oval) & colours, w/ or w/o box
- Blister

##### Batch Sizes

- 300.000 softgels in jar/blister

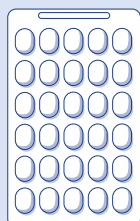

##### Packaging Sizes

- Jar: 30 ml - 500 ml
- Blister: Oblong 15, 20, per blister  
Oval: 20, 30 per blister  
Round: 20 per blister

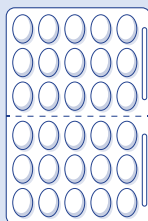

#### PACKAGING OVERVIEW

Our long-standing partnerships with trusted manufacturers allow us to expand our range of self-produced food supplements to include special dosage forms like coated tablets and softgels which are packaged on-site. These partners have proven themselves over many years and are carefully qualified by us. **Our goal is to deliver all-in-one packaging and production solutions for a wide variety of product categories, all from one single**

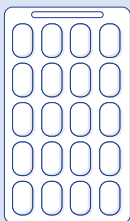

30 Softgels oval  
74 x 120mm  
λ = 10.4 x 6.9mm

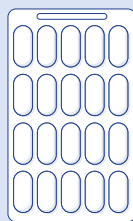

30 Softgels oval  
85 x 127mm  
λ = 15.8 x 10mm

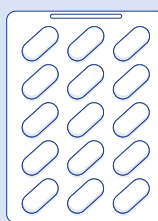

20 Softgels oblong  
74 x 120mm  
λ = 14.8 x 9.3mm

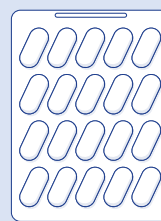

20 Softgels oblong  
74 x 120mm  
λ = 20.4 x 8.5mm

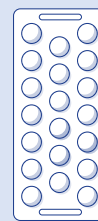

15 Softgels oblong  
92 x 123mm  
λ = 24.1 x 10mm

20 Softgels oblong  
92 x 123mm  
λ = 24.1 x 10mm

20 Softgels round  
53 x 118mm  
Ø = 7.7mm

50ml | 70ml | 100ml | 200ml | 250ml | 300ml  
In jar (PET, HDPE, CSP or glass)
