

## PRODUCT SHEET

### TABLETS

Tablets are available in **both uncoated and coated variants** and alongside capsules, they are **the most widely used dosage form**. We produce uncoated tablets in our facilities, while coated tablets are manufactured by our trusted, long-standing manufacturing partners. Developing a technically optimized tablet formulation requires a sophisticated and detailed process. Unlike capsules, tablets **offer variations such as break lines**, enabling **precise, individual dosing**.

Upon ingestion, an uncoated tablet breaks up rapidly into smaller particles until it finally dissolves completely in the stomach, thereby releasing the active ingredient. Therefore, uncoated tablets are a suitable solution for applications that require immediate action. To ensure optimal dissolution, tablets **should always be taken with sufficient liquid**. Uncoated tablets are usually the **more economic option** since they don't have an additional coating process. Coated tablets provide an additional layer of protection, shielding them from external factors such as moisture, light, and air. This helps extend their shelf life and maintain the potency of the active ingredients as well as easing swallowing and improving taste and appearance.

#### INFORMATION

##### Shapes

- Oblong
- Oval
- Round Ø 7,5mm – 14mm

##### Lead Times

- For first order 10 weeks after signatures & artwork approval
- For consecutive orders 8 weeks

##### Packaging Materials

- Lid: PET metal (gold)
- Jar: PET, HDPE (incl. sustainable jars)

##### Formulations

- Only natural colours and flavours
- Produced in single or multi-active formats
- Sugar-free options

##### Packaging Types

- Jar available in various shapes (also squared or oval) & colours, w/ or w/o box
- With thermos-sealed closure which guarantees stability and quality of the preparation.

##### Batch Sizes

- 10.000 jars

##### Packaging Sizes

- 30ml to 450ml

#### PACKAGING OVERVIEW

Our long-standing partnerships with trusted manufacturers allow us to expand our range of self-produced food supplements to include special dosage forms like coated tablets and softgels which are packaged on-site. These partners have proven themselves over many years and are carefully qualified by us. **Our goal is to deliver all-in-one packaging and production solutions for a wide variety of product categories, all from one single source.**

Oval tablet  
19.5mm, w/ or w/o  
breakline

Round  
Ø = 7.5, 10, 12, 14mm

Oval jar (HDPE)  
125ml

Square jar (HDPE)  
90ml / 130ml

Round jar (PET or HDPE)  
30ml | 40ml | 50ml | 75ml | 90ml | 100ml | 110ml | 130ml |  
150ml | 175ml | 225ml | 275ml | 300ml | 400ml | 450ml
