SUPPORT BONE HEALTH
CALCIUM 500 + D3 TABLETS

The Foundation for Strong Bones

To keep bones stable and strong, our body needs a sufficient supply of calcium at every stage of life. The **Vitamin D** contained in our tablets contributes to the normal absorption/utilization of calcium, which means that our tablets offer a sensible combination of active ingredients.
Vitamin D and Calcium also contribute to the maintenance of normal bones and teeth as well as normal muscle function.

- **Calcium** supports the maintenance of healthy bones & teeth and contributes to normal muscle function
- **Vitamin D3** for a healthy immune system
