

**SOOTHES AND RELIEVES
COUGH SUPPRESSANT ICELANDIC MOSS & HONEY**

Soothe Your Cough and Sore Throat Naturally – With Icelandic Moss & Honey

Icelandic moss (Lichen Islandicus) belongs to the shrub lichens and is at home in mountainous landscapes. In traditional herbal medicine it is used especially for its mucous membrane protecting functions. **The active ingredients act like a protective film on the irritated mucous membranes in the mouth, neck and throat area. This reduces the irritation and inhibits the irritated cough.**

The **honey** contained provides a pleasant taste -also for children - and additionally for a longer lasting moisturization of the mucous membranes. The annoying coughing irritation can be prevented longer. For adults and children from 1 year.

- Soothes the mucous membranes
- Relief of dry cough and mucosal irritation supports the natural healing process
- For a restful night
- Without alcohol – suitable for children from 1 year
- With honey
