

PREVENTIVE NASAL CARE WITH NASAL RINSING SALT

Daily Cleaning of the Nose

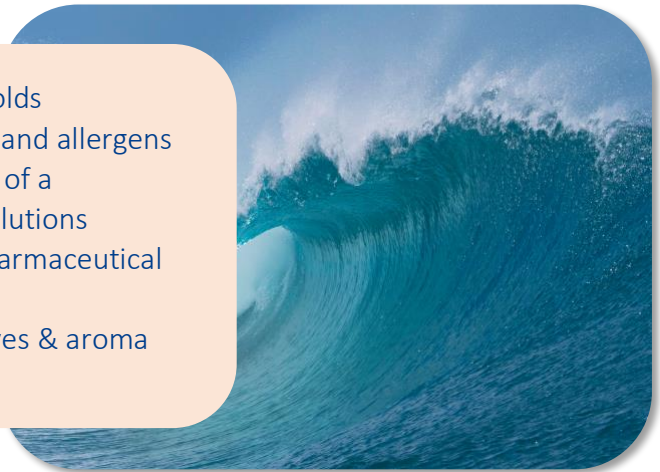

Rinsing the nose with a salt solution has been a well-known procedure for centuries to gently cleanse the nose of dust particles and dirt, as well as allergens and pathogens.

Used daily, it **supports the removal of potential pathogens as well as pollen, which can be a valuable aid especially during cold and also pollen season.**

For regular nasal care, the nasal rinsing salt can be used by adults and children from the age of 4.

- For prevention of colds
- For relief from dust and allergens
- For the preparation of a hypertonic saline solutions
- Made from pure pharmaceutical grade salt
- Without preservatives & aroma additives
